

## COMPANY PROFILE

Link Energie Industries Co., Inc. (LEI) is an end-to-end design and construction services company with over two decades of operational experience. Since 2002, we have built a reputation for excellence, backed by our prestigious Philippine Contractors Accreditation Board (PCAB) Triple "A" License. Specializing in critical water infrastructure, our services encompass pumping stations, water conveyance systems, reservoirs, and more. We are proud to serve major industry leaders, including Maynilad and Manila Water, helping to ensure the continuous supply and integrity of the nation's water systems.

## PROJECT MANAGER

### JOB SUMMARY

As a Project Manager, you will take full ownership of planning, execution, and completion of civil works projects. You'll ensure compliance with legal, technical, financial, and administrative contract requirements while managing teams and coordinating with stakeholders.

### Minimum Qualifications

- Bachelor's degree in civil engineering and a licensed Civil Engineer
- Preferably with a Master's or Post-Graduate Degree in Civil Engineering, Construction Management, or related field
- Minimum of 10 years' total on-site construction experience in the civil engineering field, with at least 5 years in a managerial or supervisory capacity
- Proven expertise in Project Management, Contract Administration, Risk Mitigation, and People Management
- In-depth knowledge of civil construction methods, local building codes, and industry best practices
- Strong leadership, communication, and interpersonal skills
- Highly organized with keen attention to detail and a results-driven approach
- Proficient in construction management tools and software (e.g., MS Project, Primavera P6, AutoCAD, Bluebeam, etc.)
- Experienced in mentoring teams and promoting a culture of safety, quality, and continuous improvement
